

WBE Certified

For Immediate Release

Release Date: November 1, 2013

To: All Media
From: Valerie Ervin, Project Coordinator, Carson Manufacturing Company, Inc.
Subject: Capital Investment Announcement

Carson Manufacturing Company, Inc. Continues to Grow Adding Capital Equipment and Personnel to Support their Siren business and Electronic Contract Manufacturing.

Investment Expands Production Capabilities of High-Mix, Low to Medium Volume Electronic Contract Manufacturing Services.

Indianapolis, IN (November 1, 2013) – Carson Manufacturing Co., Inc., one of the Midwest’s most reliable contract manufacturers, continues to invest in equipment and personnel to support its expanding capacity and technical capability. A new Cluso Vision System has been purchased that will enhance Carson’s ability to offer reliable & repeatable quality products. The Cluso compares BOMs with CAD files and pick and place programs and highlights any discrepancies so that appropriate action can be taken. The machine can be programmed in minutes, while providing Quality Reporting, Archiving, and Traceability.

In succession with the new equipment and increases in business, employment opportunities continue to grow at Carson.

About Carson Manufacturing Company, Inc.

Carson Manufacturing Company, Inc. is a woman-owned, 66 year old company, specializing in the manufacturing of Sirens and Electronic Contract Manufacturing. The company is headquartered in a 47,000 sq. ft. facility, located in Indianapolis, Indiana. They have built their solid reputation on designing, engineering and manufacturing rugged, reliable electronic and electro-mechanical products for various industries. Carson Manufacturing employs a highly skilled workforce and incorporates rigorous quality control standards and LEAN manufacturing practices.
