Carson Manufacturing Receives 2008 Blue Chip Business Award

Indianapolis, IN – Carson Manufacturing has been selected as a winner of the 2008 Blue Chip Business Award. Sponsored by the WestPoint Financial Group, the coveted Blue Chip Business Award recognizes Indiana businesses that have overcome challenges, seized opportunities, creatively utilized resources and achieved success.

The award, a symbol of strength and dedication, is given to a select group of Indiana companies each year. Recipients are selected by an independent panel of prestigious judges as embodying the spirit of business success.

From its early beginnings in 1946 until today, Carson has dealt with its share of hardships and challenges. Fortunately, through dedication, creativity and resourcefulness, Carson has overcome these obstacles and emerged a strong, successful company that has stood the test of time.

Today, Carson is a proven leader in emergency siren manufacturing and has expanded to provide contract manufacturing services to other industries. The Blue Chip Business Award is a testament to what a small organization can do through hard work, a sound strategy and a good quality product.
